

Best IFRS Course Selection: 10 Things I Wish I Knew Earlier

- 1. The content should have been created by an Experienced and a Professional team to maintain the standards and do justice to the technicalities of the course.**
 - 2. All the standards should have been covered in detail and not just focus on the ACCA course as it is the knowledge of all the standards in detail which will help in cracking the interview and getting the Job.**
 - 3. Generally the e-learning videos are not recorded and presented in an organized manner. At TISHADZ, all the videos have a proper structured pattern. We begin with the story behind every standard, its need, Objectives, Key Definitions, Content alongwith examples and comprehensive questions followed by Students corner, Memory tips and MCQs to judge your knowledge.**
 - 4. The concepts are not explained in detail or are explained in a manner assuming that the learners already know the basics. The faculty at TISHADZ know that we tend to forget the concepts over a period of time and so it is important to explain the concepts from the basic grassroot level. Hence, even if you are not at a comfort zone with your basic fundamental knowledge...u need not worry at all....!!**
 - 5. In many e-learning modules of other learning platforms, the access is limited to restricted no. of views. There is no such restriction and unlimited access should be provided.**
 - 6. IFRS is a technical subject. So only videos with content explanation are not sufficient to retain the concepts. Add ons like memory tips, students' corner, common mistakes and flash cards are needed to enhance the learning process.**
 - 7. Generally learning platforms fail to be transparent about the progress made by the learners. It is important that the portal provides you with the required feedback on a continuous basis.**
 - 8. After each standard there should be self-evaluative questions to increase student confidence and enough practice questions should be provided.**
 - 9. A step by step guide should be there to solve all the comprehensive questions to make application in the real scenario easier and smooth.**
 - 10. The IFRS course should be Advanced and yet Affordable so that a large number of students and learners can be benefited but without compromising on the quality of content which should be world-class.**
-
